27th June
PBL Awards day

1st July
Naidoc Day @ F.Bay

2nd July
Election

Principal's Message

PBL

Our PBL focus for Week 7 is "Be Prepared and Organised". As students move through their primary years at school they need to take on more responsibility for their own belongings. This includes looking after their school clothing such as hats and jumpers. It also includes jobs like changing home readers, bringing in homework etc. Taking on these responsibilities, helps students to be prepared for the requirements of High School. Our PBL data continues to improve with all our students being well aware of our target "green behaviours" and the consequences of yellow, orange and red behaviours. I am looking forward to our planned activity for those students who will appear on the PBL Award chart for Term 2!

Peer Support

This Thursday our Peer Support groups move into Session 5. This session is titled "What Qualities Make People Special". The groups discuss what special qualities they would like to see in their friends, and as a group decide the 10 most special qualities that a friend would have. Each week our Yr6 leaders are gaining in confidence and it is also great to see the Yr 5 assistants helping when needed. Congratulations must go to Bailey DeMiller who has impressed as a leader.

Reports

Teachers are currently completing class assessments and writing Semester 1 reports. Reports will be going home Friday 24th June and Parent Teacher Interviews will be held on Tuesday 28th of the following week. We will run with the same format as last year with the interviews taking place from 2.30-4.30pm.

Blue Bots -Why Should the Big Kids Have All The Fun?

We have recently purchased a set a Blue Bots for use with the younger students. Blue-Bots are Bluetooth floor robot which can be controlled using a tablet or PC. The students can create a program on screen and send it remotely to the Blue-Bot. The clear shell allows children to see inside and

We Work As One*

understand which components perform which duties, for example, where the power is stored. Initially, the Blue Bots can be programmed on the robot itself using directional buttons but as the students become more familiar they can move into remote programming.

'Student of the Week'

Our 'Student of the Week' for Week 7 is Finn Williams. Finn has shown what a talented boy he is in the area of STEM. Mr Mooney has reported that Finn is not only easily able to perform tasks but is also able to assist others to learn and understand in this area. Below is a sample of some work recently completed in the area of Mathematics. Well done Finn I do always enjoy seeing your fantastic Lego creations!

2/3 News

In 2/3 we have been working hard to improve the detail and description we are including in our writing. These are some examples of writing based on the book 'The Fantastic Flying Books of Morris Lessmore'. All of students did a great job of adding detail to their writing to make it more interesting for the reader. Well Done!

Mr Morris Lessmore

I was sitting quietly reading my book in the lovely sunshine and listening to the pink, blue and yellow birds. I was listening to tweets and the amazing wind. I was really relaxed and feeling the cool breeze. Suddenly a ginormous tornado came out from nowhere. It blew all the houses away. I was terrified, I was so terrified I was shaking. My book flew

away, I went after it but I was only holding my cane so I jumped onto the house that had my magical book on it. I did a big jump and I made it. I ran in a circle chasing my book. I was still hearing screaming. The storm was finally over. I was very dizzy but I could hear flapping and I could hear singing. There was a squadron of flying books and a beautiful lady handing on! She dropped an amazing book. I was tempted to follow it, I had to! I followed it along the path.

Lara Lockett

Morris Lessmore

I was watching the lovely street when I heard dogs barking so loud it nearly burst my eardrums. I felt so awesome but now I don't because the dogs interrupted me.

Then I saw a tornado. I heard people screaming. I saw broken houses. I felt terrified so I got my book from the air.

Finally the storm stopped. I heard bang, crash, bang. I felt sad. I'm going to run away. I saw a beautiful girl holding fantastic flying books in the air.

Noah Scott

Morris Lessmore

It was a majestic, golden summers morning at the hotel. I was reading the latest cat book on my balcony, chilled out and relaxed. Just as I finished my book I heard blue birds singing their delightful song.

But their song was torn to shreds by a horrendous tornado! People were shrieking "Ahhhhh!" and people were being blown away. "Help Me!". I lost my book on a house. I tried to grab it but I went around and around and around again. Finally I got my book back... there was blank pages of my creative work and my other books were jumbled and torn.

I began to wander and wander. Then I met a beautiful flying woman. She urged a book to lead me somewhere.
